REsearch - Transformative Actions for Sustainability Together with Youth

Questionnaire for food retailers/food businesses close to the school

This questionnaire invites you to talk to a person who sells food, such as a supermarket employee or another chain/restaurant where you or other students like to get their food. Try to interview someone in the store who has the highest possible position, such as a manager. First describe the project you are participating in and what you are researching. Tell the person that you are working on a project about healthy food systems at school, that you would like to collect ideas about this from local food vendors and that you will ask the person several questions, which will be processed anonymously.

Name of interviewee:

Name of interviewer (s):

Date:

Location:

1. What do think are 2-3 healthy and sustainable food choices for the students in this area?

.....
.....

2. What are, according to you, 2-3 healthy and sustainable food options that are offered by your business?

.....
.....

3. To what extent would you support a school's healthy and sustainable food system? (at a scale from 1 to 4): (1-not at all, 4- very)

Support towards a school healthy and sustainable food system	1	2	3	4

4. What are you currently doing to promote healthy and sustainable food to the students who come to your business to buy food? If you are not doing that, is that something you would like to get involved in and how?

.....

5. What makes the selling of healthy and sustainable food difficult in this area?

.....

6. In your opinion, what can help students become more interested in healthy and sustainable food?

.....

7. With whom could you collaborate to make your own food offering healthier and more sustainable?

.....

8. To what extent do you collaborate with students on food issues (e.g., asking their opinion about a food-related matter)? (at a scale from 1 to 4): (1=never, 4=always)

Collaboration with students on food issues	1	2	3	4
